# PITCH DECK DO'S

# Tell a story & engage people emotionally

- Everyone loves to hear stories, even the investors. So tell an exciting story about your startup

# Limit each slide to expressing one idea

- You want to keep your entire audience on the same page

# Prepare to make a great first impression

- First impressions are powerful. Believe it.
- The first 2-3 minutes are the most important

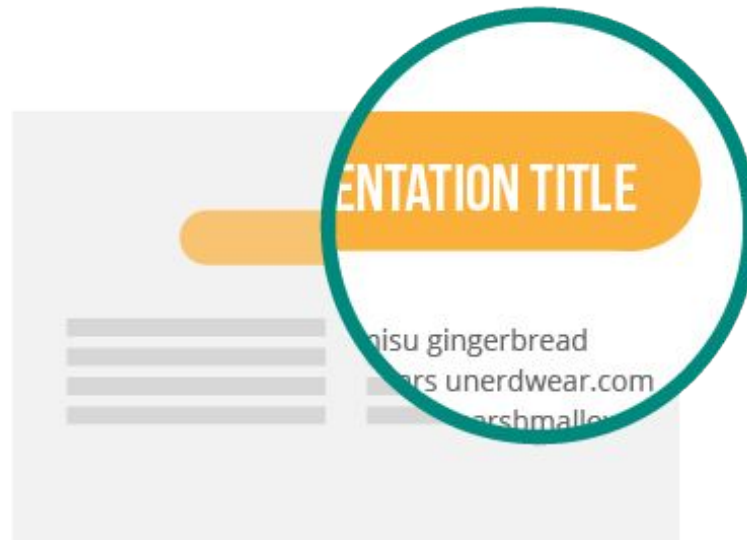

# Show the people behind your idea

- Focus on a significant, relevant accomplishment for each person in a team that identifies that person as a winner

# Keep a consistent look in presentation

- Use the same font, size, color and capitalization format across all slides of your investment pitch deck

# Know your metrics better than anyone

- Traction speaks louder than words

# PITCH DECK DONT'S

# Don't use too many bullet Points

- Limit the bullets. Too many bullet points will kill a presentation

# Don't make it too long

- Average entrepreneur pitch: 38 slides.  
Average VC attention span/cranial capacity: 10 slides. Do the math.

# Don't read word by word from your script

- You will sound like a robot and miss the all-important eye contact with the audience

# Don't create a text-rich, picture-poor presentation

- People cannot read and listen at the same time. Great visual inspire and engage people emotionally

# Don't Come unprepared

- Try to anticipate the kinds of questions they might have and be prepared with answers

# Don't use small fonts

- Always use a font large enough to be seen by all audience members. Use 32- to 44-point for titles and no smaller than 28-point for the text or bulleted items
